

## Technical Features

# Save time!

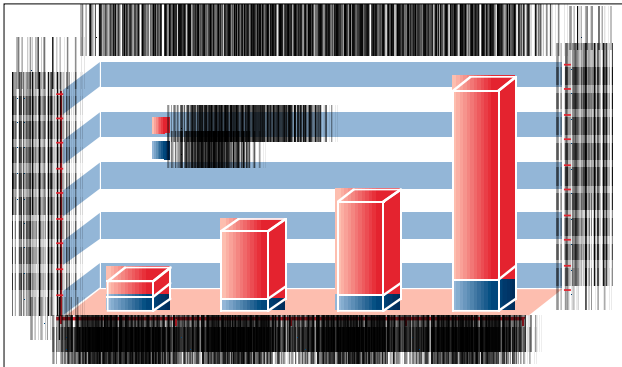

With reusable Milk Filters

# Save money!

No messy Milk Socks

Save over £120/€190 per year in an average herd of 50-100 cows

The Ambic Flowfilter is designed to last for years with a comprehensive range of spares and is considerably cheaper to run than any milk filter using disposable filter socks.

\* Based on average RRP

A key component in any milking system particularly those incorporating a Plate Cooler
